Orbital All-Surface Floor Machine

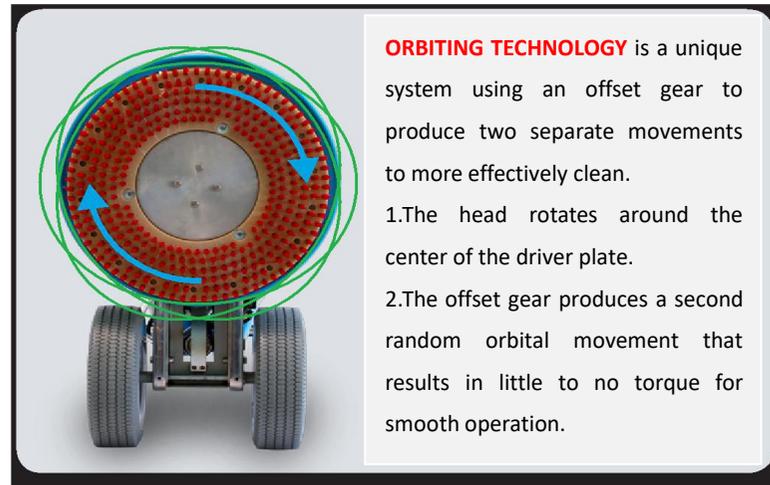

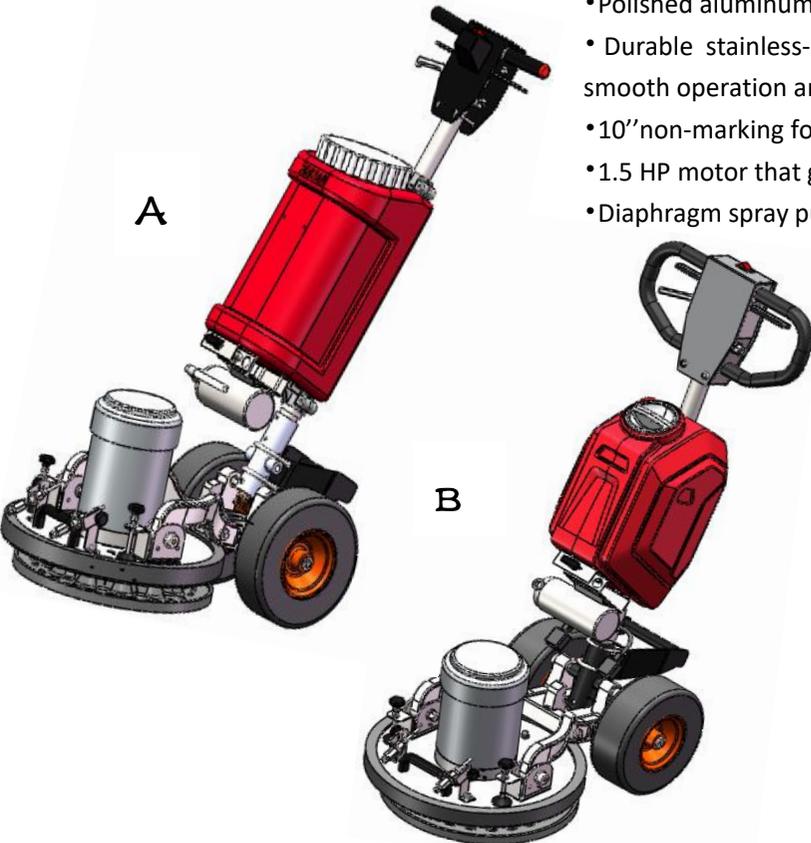

Gracia's Orbital All-Surface Floor Machines use orbiting technology to combine two movements that thoroughly clean all surface types. They feature a very-low moisture (VLM) spray system to promote a clean and healthy environment by reducing mold and mildew. A weighted deck plates allows for deep scrubbing action. These versatile machines are extremely easy to use and can be used to scrub, sand, and polish virtually all flooring types.

FEATURES & packing includes:

- Little to no torque for the smoothest operation.
- 14" and 17" cleaning path options.
- Very low moisture system to conserve water.
- Built-in 4 gallon solution tank.
- Polished aluminum torsion arms.
- Durable stainless-steel deck plate adds stabilizing weight for smooth operation and deep cleaning.
- 10" non-marking foam-filled wheels for easy maneuverability.
- 1.5 HP motor that generates 1,725 oscillations per minute.
- Diaphragm spray pump with spray jet and spray gun.

Orbital Offset Bearing
(Patent:201811473596.1)

ORBITING TECHNOLOGY is a unique system using an offset gear to produce two separate movements to more effectively clean.

- 1.The head rotates around the center of the driver plate.
- 2.The offset gear produces a second random orbital movement that results in little to no torque for smooth operation.

Advantages

Orbital All-Surface Floor Machine

One-For-All

One machine for all surfaces

All-In-One

All functions combine into one machine

Save time -

The orbital technology increase cleaning efficiency,with great stability,less training time is also required.

Save cost:The orbital tech consumes less energy than a regular single disc machine.

Save water: The machine prevents water from being dispersed from cleaning radius,thus less water is used.

Save The Environment

As cleaning agent and water is well kept within the cleaning Radius,less of such is being used. Also, the mechanism of this machine allows the use of less or no cleaning agent for regular light daily cleaning.

Item includes :

- Solution tank :15L
- Pump with spray jet and spray gun system
- Wire pads : 1pc red bristle pad with 2pcs microfiber pads for carpet-cleaning.
1pcs black bristle pad for all hard surface-cleaning
- 1.5HP motor

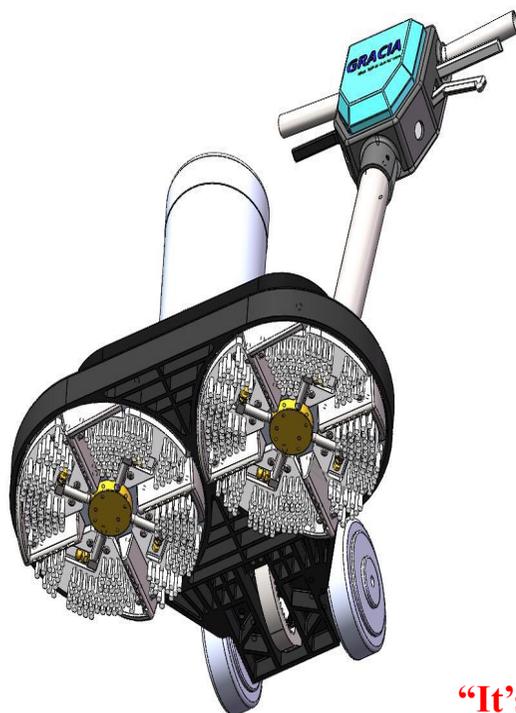

Total Rotary Extraction Cleaning™ Head

Gracia's high performance rotary extraction tools are the peak of carpet cleaning technology. The rotary action of the cleaning head does all the work. Which means significantly less effort is required to operate the TREX versus the effort required to scrub back and forth with a wand.

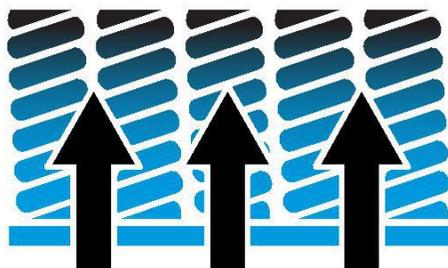

GRACIA-TRE-12

GRACIA-TRE-24

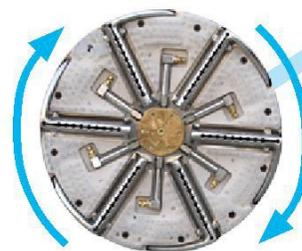

GRACIA-TRE-15

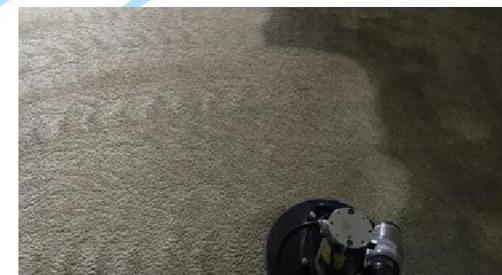

Unique technology : Unlike other rotary machines, Gracia's TRE units clean carpet fibers from the bottom-up. This allows for carpet restoration that restores bounce to fibers.

TRE-12	TRE-15	TRE-24
180RPM	160RPM	180RPM
4 vacuum slots for quick drying times	6 vacuum slots	8 vacuum slots
High solution flow with 4 sprayer jets	6 sprayer jets	8 sprayer jets
Powerful 1 horse power electric motor	1.5 HP	2HP
Ambidextrous safety switch - prevent damage to near by objects		
Elevated,easy handle adjustment		
Clear swivel tube		
Swivel QD		
Front handle for easy pick up		

“It’s time to say GOODBYE to traditional way of carpet-cleaning ”

Faster cleaning: The TRE machine makes over 960 cleaning passes per minute. The result? Now you can use the time you just saved to book another job, meaning more money in your pocket.

Deeper cleaning :The TRE has 6 spray jets and 6 vacuum nozzles, more than any other rotary machines on the market. So you get more agitation, faster drying times, and better results.
